# CRETA

# Makes more possible.

The new CRETA

A Style that Really Gets You Going

CRETA really does make more possible. First, it gives you big car roominess and versatility but without the big car price. And second, it drives just like a sedan and feels just as comfortable thanks to its spacious, well-appointed interior. Its high seating position promotes a feeling of safety and security inspiring greater confidence. CRETA really does open up the door to all kinds of possibilities.

## Confident style.

Seating five in high style and in decent comfort, CRETA doesn't leave much to be desired. Whether in basic GL trim or the premium GLS, CRETA packs more standard features than the competition and proves that good things really do come in small packages.

# A winning design.

From any point of view, CRETA has the looks of a winner. Crisp masculine lines give it an assertive presence that inspires driver confidence. Arrive in style and be prepared to get all the attention.

Front design

Projection headlamps  
Fog lamp with LED daytime running lights (DRL)

Rear design

17" alloy wheels  
Rear combination lamps

# Inner beauty.

CRETA's footprint may be small but inside it is packed with plenty of big features: That's the beauty of CRETA. The cabin is surprisingly well-appointed and spacious. Even more impressive is how agile and nimble it is in city driving. And options that make driving easier such as Rear Parking Assist that makes parking an absolute breeze even in the tightest of spots.

**Smart key**  
A proximity sensor detects the key fob allowing the automatic unlocking of the door and push button engine starts.

**Supervision gauge cluster**  
Pleasing and highly soothing to the eyes, this high-tech display borrows technology from our luxury sedans. Vital vehicle information is conveyed in vivid shades of blue, white and red and in exquisitely fine resolution.

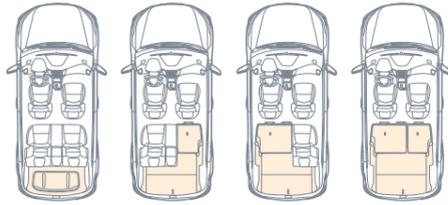

**Leather steering wheel**  
Made with premium leather and extra-fine stitching, this steering wheel shows exquisite workmanship and feels absolutely luxurious. A leather-wrapped gear knob is included as part of this option package.

**Sounds good**  
CRETA's two front and two rear speakers have been acoustically tuned to deliver rich, clear sound quality that is capable of satisfying the most discriminating audiophile. Performance can be upgraded with two front tweeters.

# Versatile space.

CRETA sets you free to let you explore the great outdoors. Comfortably seating up to five adults, CRETA's spacious interior takes versatility to new heights with its split-rear seats which can be folded down to make room for extra cargo.

## Seat variation

The rear space is highly flexible and can be configured to carry a variety of different combinations of cargo and passengers. CRETA's cargo compartment is cavernous: It offers up to 1,396 liters of space with seats folded flat. That's more than any other competitor.

# Reliable performance.

CRETA's powerplants are tried and true workhorses that have earned a reputation for reliability, responsiveness and low running costs. CRETA comes with a choice of engines and transmissions to better meet individual requirements. All Hyundai powertrains feature advanced technologies that promote confident driving.

**Automatic transmission**  
Enjoy smooth, effortless and quiet shifting with the six-speed automatic.

**Manual transmission**  
The manual six-speed delivers sporty performance and great economy.

**Gasoline 1.6 MPI**  
When pushed hard, the 16-valve Gamma engine responds delightfully. Featuring an all-aluminum engine block and a DOHC cylinder head to minimize weight and fuel consumption, this beauty boasts an impressive weight-to-power ratio.

**Diesel 1.6 CRDi**  
A Variable Geometry Turbocharger and a Common Rail Diesel Injection system help the U2 generate amazing amounts of torque. This small and impressively quiet powerhouse comes with a choice of manual or automatic six-speed transmissions.

**Diesel 1.4 CRDi**  
This smaller edition of the U2 engine is specifically designed for those who value economy and utility above all else. For simplicity and reliability, it features a waste-gate-type turbocharger and is mated to a six-speed manual gearbox.

# Trusted safety.

With its own captive steel manufacturing division, Hyundai knows steel like no other automaker. Applying that knowledge to CRETA has resulted in the safest possible body structure. The use of advanced high strength steel in CRETA's body structure has been increased to 22 percent-the highest ratio in the segment. The result is an incredibly rigid body that can safely absorb crash impact forces like no other.

## 6-airbag system

The latest depowered-type front airbags serve the driver and front seat passenger. Side airbags protect the thorax and pelvic areas of the driver and front seat passenger. Curtain airbags provide head protection across the side window areas. Along with 6 Airbags, Driver & Passenger Seatbelt Pretensioners are applied for enhanced safety performance.

## Hill-start assist control

When stopped on a steep hill and releasing the brake to begin acceleration, HAC automatically takes over and eliminates the worry of accidentally rolling backwards. (Included with ESC)

## Anti-lock brake system

In a panic braking situation, one or more wheels may lose traction which leads to a loss of directional control. ABS applies braking power over individual wheels to help the driver maintain full directional control of the vehicle.

## Electronic stability control

Using inputs from multiple sensors including vehicle speed and performing thousands of calculations per second, ESC regulates engine output and adjusts braking power over individual wheels to prevent the loss of directional control.

# Features

16" steel covers

16" alloy wheels

17" alloy wheels

Radiator grille
