ELANTRA

The answer is you.

Stand strong. Have faith in yourself,
then see your true strengths unleashed.

Most sensuous.

The Immersive Interface cocoons the driver like a cockpit that surrounds the pilot, offering easier control and an enveloping, advanced driving experience.

Immersive Interface

A full color cluster display and navigation screen (both 10.25") deliver a fully immersive space and a seamless, integrated panoramic view, tilted 10 degrees toward the driver for easier control and a high-tech feel.

64 Color Mood Lamp

Elantra's 64 color ambient mood lamp makes driving at night even more exceptional.

BOSE Premium Sound System

Elantra's 8 high-performance speakers deliver precise, powerful sound, ranging from low- to high-pitched tones at volumes that adjust according to the speed of your vehicle.

Hyundai SmartSense

Forward Collision-Avoidance Assist

If the preceding vehicle suddenly slows down, or if a forward collision risk is detected, such as a stopped vehicle or a pedestrian in front, it provides a warning. After the warning, if the risk of collision increases, it automatically assists with emergency braking. While driving, if there is a risk of collision with a cyclist, it automatically assists with emergency braking. If there is a risk of collision with an oncoming vehicle while turning left at an intersection, it automatically assists with emergency braking.

Blind-Spot Collision-Avoidance Assist

When operating the turn signal switch to change lanes, if there is a risk of collision with a rear side vehicle, it provides a warning. After the warning, if the risk of collision increases, it automatically controls the vehicle to help avoid a collision.

Driver Attention Warning

Displays the driver's attention level while driving. Provides a warning when signs of driver inattentiveness are detected, and recommends a rest if needed. The driver should stop and park in a safe place and get plenty of rest before driving. During a stop, the driver is alerted if the leading vehicle departs.

Smart Cruise Control

Smart Cruise Control helps maintain distance from the vehicle ahead and drive at a speed, set by the driver. The vehicle stops automatically and starts automatically if the vehicle in front starts in a short time. If a period of time has elapsed, start again by pressing the accelerator pedal or operating the switch.

Lane Following Assist

Detects lane and vehicle ahead on the road with a front view camera on the front windshield, and assists the driver's steering to help keep the vehicle centered between the lanes.

Rear Cross-Traffic Collision-Avoidance Assist

If there is a risk of collision with an oncoming vehicle on the left or right side while reversing, it provides a warning. After the warning, if the risk of collision increases, it automatically assists with emergency braking.

Features

15" Steel Wheel & Wheel Cover
